

Les Ecureuils Residence charter Fighting the Covid-19

Apartment maintenance :

- a. Prevent employees from entering the apartments during the client's stay and until their departure.
- b. Leave the rooms to rest for at least 3 hours before intervention, having taken care to ventilate. We ask the client to leave the apartment windows open when they leave.
- c. Implementation of a reinforced cleaning plan : full cleaning of the living space, bedroom (s), kitchen, bathroom and WC with eco-labeled products and disinfection of sensitive places with a virucide. Use of a disposable washing headband impregnated with detergent.
- d. No crossing takes place between clean and dirty laundry.

Bike storage :

- a. Disinfection of the front door and switches once a day.
- b. Disinfection of the washing machine once a day.
- c. Disinfection of handlebars and bicycle saddles once a day.
- d. Virucidal product, wipes and hydroalcoholic gel available to customers.

Swimming-pool :

- a. Disinfection of the gate door once a day.
- b. Ramp disinfected once a day.
- c. Deckchairs disinfected once a day.
- d. Virucidal product, wipes and hydroalcoholic gel available to customers.
- e. According to the recommendations of the A.R.S., a trickle of water flows continuously into the footbath giving access to the pool range. The chlorine level is between 2 and 4 mg/l and the PH is between 6,9 and 7,7. Daily statements are carried out and noted on the sanitary notebook. A DDASS visit is planned every month from mid-June and the results posted.

Réception :

- a. Disinfection of door keys.
- b. As the office is small, guests will be asked to stay outside
- c. Credit card and invoices sent by email are preferred
- d. Disinfection each time the payment terminal is used
